To Whom it May Concern:

I would like to take this opportunity to compliment Cape Cod Roofing and Siding on the outstanding job they did with the installation of our new roof. I am the Director of Environmental Services of an assisted living facility containing 80 apartments and was overseeing this job from beginning to the end. Skip and his crew worked in a professional manner on a daily basis, and were very considerate of our residents and left the premises in a neat, clean manner at the end of their work day. They were very conscientious about their workmanship and the safety on the job site. The entire crew worked everyday, and if they missed a day during the week due to foul weather, they would make up the time they lost on the weekend. They were on time every day and started promptly at 7:45AM and worked until late dusk. They were never tardy.

At the end of the day the foreman, Jay, would check in with me to see if everything they had done that day met my expectations, and he followed through with this practice right up to the end of the job.

In foul weather when they couldn't be on the job site working, Skip and his foreman Jay would come to our facility and check on their work to make sure that everything was still in tact, as they had left it prior to the storm. I certainly did appreciate this effort, because if there were any roofing issues, they would take care of it right away.

Due to these fine attributes, I would highly recommend Cape Cod Roofing and Siding for any of your roofing and siding needs, no matter how big or small the job may be.

Sincerely,

Mark Blanchette
Director of Environmental Services
